

High Performance Polymers

## Fact Sheet BARplast

### **About BARplast:**

BARplast is a distribution company for High Performance Polymers, specializing in Polyimide and PEEK. BARplast uses an established and highly respected, international supplier-network to offer various grades of thermosetting Polyimides (PI-s) as well as the full range of Mitsui Chemicals AURUM® thermoplastic Polyimides (TPI), along with PEEK, PAI, PEI and PBI. BARplast's materials in the form of pellets, powders, semi-finished and finished products are serving technically demanding industries such as semiconductors, aerospace, defense, oil & gas, automotive, food, medical, and advanced industries.

BARplast LLC was formed in Texas, USA and is a subsidiary of the BIEGLO-Group based in Hamburg, Germany.
